A lot of dialog/discussions at the forum. I would like to see some workshops or hands-on activities.

UES2015 provided an excellent cross-section of business/policy/peer resources. Speakers for the panel discussions were diverse, informative and transparent. The conference proved to be a value added experience and I look forward to following up with many of the links and relative materials to enhance and position my business initiatives. Improvements may include additional dialogue with participants, and an opportunity to attend more of the breakout sessions. Great day!

I had typed out some constructive feedback twice in this box and it was deleted. My feedback would be to offer a better place to provide feedback. A spot that would accept paragraph form/spell check ect ect. as well as a spot to provide email contact info if you wanted to follow up. To that end, if you would like to contact me, my email is christopher.pk.rein@gmail.com
